

Letter of Recommendation

To Whom It May Concern,

I am writing to enthusiastically recommend Naasir Bush for his exceptional leadership and contributions across product teams at 2Barrels.

Naasir has played a key role in fostering collaboration and transparency within and across his product teams. His leadership style ensures that no one works in isolation - every team member has the context, resources, and support needed to not only succeed but to feel like they are actively winning.

Naasir's strong business acumen has directly improved team workflows and strengthened alignment between cross-functional groups like RAINC and Address. Through his thoughtful involvement, his teams consistently focus on high-impact work, and all stakeholders maintain clear visibility into progress and priorities.

This leadership approach has opened the door to deeper collaboration and knowledge-sharing, streamlined the execution of deliverables, and shaped product direction with transparency at its core. Naasir's contributions have strengthened his teams' problem-solving abilities and created more cohesive, well-informed product groups.

It has been a pleasure working alongside Naasir, and I have no doubt he will continue to drive impactful change wherever he goes.

Sincerely,

Lainy Beyers
